**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patrick Bergin on March 28, 2005.

2. The application has been amended as follows:

Line 14 of Claim 1 to "being inserted within the face portion receiving aperture to dispose the filter member".

Line 15 of Claim 11 to "inserted through the filter-receiving aperture and into".

***Allowable Subject Matter***

3. Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art neither teaches nor suggests the claimed showerhead assembly that includes a receiving opening defined within the face of the showerhead, which opening is functionally adapted to receive the filter within and flush with the final surface. Farley, U.S. Patent No. 6,325,930 B2 teaches a showerhead assembly comprising a removable filter received within the downstream face of the showerhead, but does not teach an opening in the face of the showerhead to insert the filter. Therefore the showerhead would need to be disassembled in order to replace the filter.

Art Unit: 1723

allows the filter to be removed and replaced through the face of the showerhead without disassembling the showerhead.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
